

Aman Ali

+91 7004640856 | iamfarooque@gmail.com | linkedin.com/in/amanali00 | github.com/farooque

Software Developer with experience in Java Full Stack Development and modern frontend technologies including React.js. Skilled in building responsive web applications, REST APIs, database-driven systems, and scalable business solutions. Strong foundation in Java, Spring Boot, SQL, and web development.

EDUCATION

Maharaja Ranjit Singh Punjab Technical University, Bathinda. 2019– 2023
Bachelor of Technology in Computer Science

Z.A Islamia College, Siwan. 2017 – 2019
Intermediate – PCM

TECHNICAL SKILLS

Languages: Java, JavaScript, C, C++, Oracle SQL, MySQL.

Frontend: HTML5, CSS3, React.js, Bootstrap.

Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating System, Web Development

Developer Tools: Eclipse IDE, VS Code, IntelliJ Idea Ultimate, Spring Tool Suite(STS).

Technologies/Frameworks: React.js, Spring Boot, Hibernate JPA, JDBC, MongoDB, JSP, Servlet API, Bootstrap, Apache Tomcat, Git/GitHub.

EXPERIENCE

Eluntrix Digital | Software Developer 2025– Present
JavaScript Full-Stack Web Development

ShaadiRoot | **Tech used:** React.js, JavaScript, HTML5, CSS3, REST APIs, Git, Responsive Web Design

- Developed and maintained an AI-powered wedding planning platform serving wedding planning and vendor management workflows, improving user experience through responsive React-based interfaces.
- Implemented features for guest management, event coordination, vendor discovery, and budget tracking.
- Integrated REST APIs and optimized frontend performance for a smooth user experience.
- Ensured cross-browser compatibility and mobile responsiveness across the platform.
- Collaborated on UI/UX improvements to enhance user engagement and usability.

JSpiders: Java Training Institute 2023– 2024
Java Full-Stack Web Development

Online Medical Shop (Medi-Shop) | **Tech used:** Advanced Java, Hibernate JPA, JDBC, HTML & CSS.

- Developed a robust Online Medical Shop, allowing users to buy and view medical products and reviews for various medicines and services, enhancing user engagement and trust.
- Implemented features such as user login, review submission, rating systems, and sorting/filtering options to provide a seamless and interactive experience for users, resulting in increased platform usability and customer satisfaction.

Air-Asia Project (Personal Project) | **Tech used:** Advanced Java, Hibernate JPA, JDBC, HTML & CSS.

- Designed and implemented a flight booking system with Spring Boot, including searching, booking, and price filtering functionalities.
- Created registration and login features with role-based access control for users, admins, and staff.
- Developed and documented RESTful APIs for all functionalities, ensuring thorough testing with Postman for seamless integration and interaction.
- Utilized JPA and Hibernate for database operations, designing optimized schemas for flights, bookings, and users, ensuring data integrity and consistency.

CERTIFICATIONS

- Java Full Stack Certificate
- HTML & CSS Certificate.
- JavaScript Certificate.
